

Oorgan 2019

INORGANIC DAYS in Sweden 2019

June 12-14 in Umeå

Focus areas

- Coordination and bio-inorganic chemistry
- Materials chemistry and catalysis
- Technical and industrial chemistry
- Inorganic environmental (geo)chemistry
- Batteries and renewable energy
- X-ray and neutron methods
- Nanomaterials, colloids and patterns
- Thin films, surfaces and interfaces

Invited speakers

- Heather Allen (Ohio State University, USA)
- Liane G. Benning (GZF-Potsdam, Germany)
- Ian C. Bourg (Princeton University, USA)
- William Casey (UC Davis, USA)
- Mari-Ann Einarsrud (NTNU, Norway)
- Sofi Jonsson (Stockholm University, Sweden)
- Christine McKenzie (U. South Denmark)
- Dirk Rudolph (Lund University, Sweden)
- James Rustad (US Department of Energy, USA)
- Eric Scerri (UCLA, USA)
- Ann Terry (Lund University, Sweden)
- Lars Öhrström (Chalmers, Sweden)

6 Keynote Lectures on

- 2019 International Year of the Periodic Table
- Inorganic processes in nature
- Views from the U.S. Department of Energy
